

Dear Friends at FCC,

This political smear campaign against Senator John Kerry is genuinely undemocratic.

I believe Sinclair Broadcasting's decision to demand their stations to air such documentaries as "Stolen Honor" is morally wrong. Is this what our new media consolidations are coming to?

Where is a true democracy in this kind of "reporting"?

What has become of news that truly serves not only public interest, but the integrity of our founding fathers?

Thanks for listening.

Sincerely,
